# Modellers' Database

Selected series for macroeconomic analysis derived from national accounts and labour force data

Reference period September Quarter 2021

---

Released 3/12/2021

## On this page

[Main features](#)

[Data downloads](#)

## Main features

The Modellers' Database contains 119 series derived from National Accounts and Labour Force data to facilitate modelling requirements of stakeholders.

## Rounding

Any discrepancies between totals and sums of components are due to rounding.

## Privacy

The [ABS Privacy Policy \(https://www.abs.gov.au/privacy\)](https://www.abs.gov.au/privacy) outlines how the ABS will handle any personal information that you provide to the ABS.

## Data downloads

### Changes to Excel file format on the ABS website

In line with updating to more recent technology formats, the ABS will progressively transition to releasing Excel files in the .XLSX format. This means that time series

spreadsheets in the suite of National Accounts releases will be progressively upgraded from .XLS files to .XLSX files.

While this change will improve usability, it may also require changes to automated macros or similar programs that users may have in place that call on the current file extension format.

For this product, this change will take effect from the December quarter 2021 release, to be published on 4 March 2022. Previously released data will not change.
